What is a power supply cabinet?

Our power supply Cabinets are designed to protect your critical equipment from power surges and voltage spikes from the toughest operation condition. Our distribution cabinets can be made from materials such as Aluminum, Steel, or Stainless Steel. We provide a variety of outdoor power supply cabinets to meet the needs of different industries.

Are our power supply cabinets UL compliant?

We make sure to meet strict industry standards when it comes to the design and manufacture of our power supply cabinets. We are compliant with the following standards: IEC 60297 ,UL 508A,NEMA 250. Our facility is manned by industry-leading experts in the field of power supply and control.

What is a MT series power supply?

Magna-Power Electronics MT Series uses the same reliable current-fed power processing technology and controls as the rest of the MagnaDC programmable power supply product line, but with larger high-power modules: individual 150 kW and 250 kW power supplies. The high-frequency IGBT-based MT Series...

What materials are used to make distribution cabinets?

Our distribution cabinets can be made from materials such as Aluminum, Steel, or Stainless Steel. We provide a variety of outdoor power supply cabinets to meet the needs of different industries. We use only the highest quality materials and components to build our cabinets.

High-Temperature Resistant Electrical Switchgear Custom Power Cabinet for Steel Plants, Find Details and Price about High-Temperature Resistant Switchgear Electrical ...

MPC Moore Power Supply Cabinets are available for either Ground Mounts or Pad Mounts. Design features include stainless steel welds and hinges, upper shelves for power supply ...
