As the world moves towards decarbonization, innovative energy storage solutions have become critical to meet our energy demands sustainably. AnyGap, established in 2015, is a leading ...

Why Squirrels Matter in Energy Storage Here's a fun fact: Finnish researchers studied red squirrels' food caching behavior to optimize battery placement. Turns out, ...

A battery energy storage system (BESS) is an electrochemical device that charges (or collects energy) from the grid or a power plant and then discharges that energy at a later time to ...

Romania is set for a significant expansion in the photovoltaic sector in 2025, driven by funding programs such as Casa Verde and RePower EU, the liberalization of energy prices, ...

All-in-one PV Energy Storage System This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage ...

In a rising investment wave, firms in Romania are combining energy storage with solar, wind and hydropower or building standalone ...

Whether you're located in Bucharest, Cluj-Napoca, Constanta, or a remote village in Transylvania, GSL ENERGY offers state-of-the-art factory-direct lithium battery storage ...

In its first, the Romanian government has allocated EU funds for two major battery energy storage projects via the National Recovery and Resilience Plan. A utility-scale solar ...

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions ...

With the funding secured from the Modernization Fund, the Ministry of Energy launched the competitive bidding call on Tuesday. Bids will be accepted until January 17, 2025.

Trina Storage, the energy storage division of Trina Solar, has teamed up with Allview, one of Romania's leading EPC contractors, to develop a Battery Energy Storage ...

This single project will double Romania's current installed storage capacity of 398.8 MWh, a figure that comes from transmission system operator Transelectrica, and mentioned ...

R.Power Renewables has been awarded a significant EUR15 million (RON 74.6 million) grant by the Romanian Ministry of Energy to deploy its first large-scale battery energy storage ...

Romanian developer Monsson has installed a 24 MWh battery storage system as the first stage of a 216 MWh project. The storage unit ...

Discover the ESS-GRID FlexiO, an air-cooled solar battery storage system designed for industrial and commercial use, featuring a split PCS and ...

Monsson has submitted a 2GWh BESS project in Romania for approval, which an executive said will use its own patented energy storage solution.

The storage system is installed next to the Mireasa wind farm and the Galbiori solar park and will be fully connected to the grid by the end of 2024. Prime batteries are set to be ...

Ever wondered why European photovoltaic energy storage companies are dominating headlines? Germany's solar farms working overtime even during Oktoberfest, ...
