-----

China has switched on a record-breaking vanadium flow battery in Xinjiang, pairing it directly with a 1 gigawatt solar farm to soak up desert sunshine and feed it back into the grid after dark ...

Rongke Power China has just brought the world's largest vanadium flow battery energy project online, marking a massive milestone in long-duration grid-scale energy storage.

China has just brought the world's largest vanadium flow battery energy project online, marking a massive milestone in long-duration grid-scale energy storage. Located in China's Xinjiang ...

Governor Kathy Hochul has unveiled New York's first competitive solicitation for bulk energy storage, aiming to procure 1 gigawatt (GW) of capacity as part of the state's ...

The Dubai Electricity & Water Authority (DEWA) is seeking up to 2GW of solar PV and 1GW of battery energy storage systems (BESS). The project will be located within the ...

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk ...

China has brought a 1 GW offshore solar power plant online off the coast of Dongying, Shandong province, combining PV with energy storage and aquaculture in what is now the ...

China has connected the world's first 1-GW offshore solar farm to the grid, a plant off Shandong set to generate 1.78 TWh per year.

The AES Corporation (AES) has completed Bellefield 1, a 1,000 MW solar-plus-storage facility under a 15-year contract with Amazon. Located in Kern County, California, ...

EGPA acquired the solar-plus-storage project from RES, a U.K.-based renewable energy project developer. The Tallawang hybrid project is located in the New South Wales ...

Enel Green Power Australia (EGPA), a joint venture of Enel Green Power and INPEX Renewable, has reached an agreement with the UK renewable project developer RES ...

AES has completed the 1GW Bellefield 1 project in Kern County, California, marking a significant milestone in renewable energy development. The Bellefield project, ...

Once completed, the 2,000 MW Bellefield project is expected to be the largest solar-plus-storage facility in the United States.

New York Gov. Kathy Hochul has launched New York's first bulk energy storage request for proposals (RFP), intended to procure 1 GW of bulk energy storage as part of New ...

BAKU, Azerbaijan, January 18. Masdar, a leading UAE clean energy company, has announced key partners for the development of the world's first "round-the-clock" gigascale ...

UAE-based renewable energy developer AMEA Power is set to build one of Africa's largest solar PV projects in Egypt, with a generation capacity of 1GW, after signing ...

Darden storage site in Fresno County is the first California project to be permitted under the state's new Opt-In Certification program ...
