Photo by Doug Murray for FPL Florida's largest utility, Florida Power & Light (FPL), is ramping up its energy storage ambitions across ...

Significant investments in a 400MW energy storage system yield unparalleled opportunities to enhance grid reliability, maximize renewable energy utilization, and align with ...

EnBW has announced plans to develop a 400MW/800MWh battery energy storage system at its Philippsburg Energy Park site in southwest Germany. If completed, the project ...

Renewable energy storage specialist Apatura said the 400-megawatt (MW) capacity battery energy storage system (BESS) - one of the largest of its type in the UK - will ...

The world's first 400MWh energy storage project using 628Ah ultra-large cells has been successfully connected to the grid at Phase II of the Ruite New Energy Project in ...

A Wartsila energy storage site in south Texas owned by Eolian, which is partnering with Portland General Electric at two storage ...

Zenobe, the battery storage and fleet electrification specialist, has today announced it has reached financial close and begun construction of its ...

These battery energy storage facilities allow PGE to optimize the renewable power in its portfolio and deliver electricity even when the sun isn't shining and the wind isn't blowing. ...

On June 25, the Dongfang Xuneng Keping 400MW/1.6GWh standalone energy storage project officially broke ground in the Keping County PV Industrial Park....

An aerial photo is showing the largest energy storage 400MW project in Shandong province in Zaozhuang City, China, on March 10, 2024.

About Aypa: Aypa Power, a Blackstone portfolio company, is North America's leading energy storage-focused independent power producer. Aypa develops, owns, and operates utility-scale ...

The new PGE battery project was made possible partially by the new Inflation Reduction Act, which offers investment tax credits for battery storage projects. PGE refers to the new ...

Renewable energy developer Ampyr Australia is seeking an investor for a 400MW/1,000MWh battery energy storage system (BESS) in New South Wales, Australia. ...

Polish state-owned energy company PGE Group announced a new tender for the construction of a battery energy storage facility in Gryfino, one of the largest in the country ...

A 185 MW solar, 400 MWh battery energy storage system (BESS) project in Lincoln County, Nevada, featuring Tesla's Megapacks has officially started operations.

The two BESS projects are designed to support grid stability and energy affordability in Puerto Rico by enabling the storage of renewable electricity for use during ...

Eurowind Energy and Capstone finalize the sale of the 400 MW/3,200 MWh Potentia-Viridi BESS project to Clearway's Renew Development HoldCo LLC, marking a key ...

Renewable energy developer Acen Australia has started construction on a 200MW/400MWh battery energy storage system (BESS) co-located at the 720MW New ...
