What are Eaton's modular data center solutions?

Eaton's modular data center solutions are designed to your specific needs and easily scalable and space saving with no customer white space consumed. Eaton's modular data center solutions are custom engineered to site-specific infrastructure requirements including power distribution, IT infrastructure, HVAC, etc. all in one enclosure.

What are modular data center solutions?

Modular data center solutions promote designs that adapt to complex infrastructure requirements in different locations and environments. Modular solutions provide quick-to-deploy compute capacity even in remote areas. Modular approach minimizes changes and delays, simplifies project design and complexity.

What is a rakworx Smart Modular data center?

RakworX's Prefabricated Smart Modular Data Center (MDC) is an energy-efficient, high-performance solution with natural air cooling for a PUE as low as 1.1. It's a fully contained, adaptable data center designed for rapid deployment, scalability, and growth. Our Small Chamber add-on optimizes airflow, enhancing cooling by containing cold air.

What is a free-standing outdoor server cabinet?

A free-standing outdoor server cabinet or enclosure is a kind of a cabinet that houses electrical components and parts. What makes it unique from other enclosures is that it stands alone.

Fully contained modular data center in a box with scalable infrastructure to provide custom solutions for optimum efficiency. IT infrastructure, UPS, batteries, switchgear, power ...

Get flexible and cost-effective rack and containment products and secure integral systems in your data center. Secure voice, video and data ...
