The successful pilot project demonstrated the feasibility and benefits--including enhanced grid stability, increased renewable energy utilization, and peak shaving--of using super batteries ...

The project, one of Australia's first large-scale direct current (DC)-coupled hybrid battery systems, pairs a 128MWh DC-coupled ...

Atmos Renewables" project refinancing was was oversubscribed. Image: Potentia Energy. Potentia Energy has secured approximately AU\$830 million (US\$557 million) in ...

Like much of the country, WA is embracing rooftop solar with breathtaking gusto. But the state's position as the world's biggest island grid is posing a unique problem with ...

The Honourable Penny Sharpe, Minister for Energy of New South Wales, delivered the closing remarks at Pumped Storage: Powering Australia's Energy Future, a ...

Ten new major wind, solar and battery projects approved by the NSW government for the state's west are set to generate more than 7GW of power -- nearly triple the output of ...

The volume of large-scale battery energy storage projects under construction in Australia passed that of solar and wind projects combined in 2023 and the trend has ...

Rooftop solar and utility-scale energy storage growth led renewable energy to fulfil almost 40% of Australia's electricity supply in ...

The project, one of Australia's first large-scale direct current (DC)-coupled hybrid battery systems, pairs a

128MWh DC-coupled battery with an 80MW alternating current solar ...

The New South Wales government has said that 3.5GW of solar PV, BESS and wind have been granted the right to connect to the South West REZ.

REZs will group new wind and solar power generation into locations where it can be efficiently stored and transmitted across NSW. Five zones have been identified and will ...

Australia's latest CIS Tender 4 has delivered a landmark set of 20 clean energy projects, totaling to a massive 6.6 GW of renewable capacity and 11.4 GWh of battery storage. ...

Australian energy major AGL has welcomed the approval in New South Wales (NSW) of a large-scale wind power plant with battery storage.

As Australia's shift from coal to renewables continues at pace, companies are working on innovative ways to store larger amounts of ...

New South Wales has announced plans to fast track tenders for solar, wind, and long-duration energy storage, and significantly increase the targeted capacity, as it prepares ...

KITCHENER, ON, December 17, 2024 - Recurrent Energy, a subsidiary of Canadian Solar Inc. ("Canadian Solar") (NASDAQ: CSIQ) and a global developer, owner, and ...

REZs will group new wind and solar power generation into locations where it can be efficiently stored and transmitted across NSW. ...

SYDNEY, July 29 (Reuters) - Australia will expand the volume of solar and wind projects it underwrites in the race to stabilise an ageing power grid and hit a target of 82% renewable...
