What is the warranty of the energy storage 2 MWh system?

the product warranty of the industrial and commercial energy storage 2 MWh system is classified into basic warranty and advanced warranty. After the device is delivered, the basic warranty is automatically obtained. If the device is connected to Huawei PV cloud or purchased from Huawei for five years, the warranty is upgraded to advanced warranty.

How long is the warranty on a battery module?

For details, see Table 2-1. The performance warranty of the battery module is based on the ten-year warranty period and the number of cycles. The one that reaches the warranty first takes effect, and the warranty expires.

What is the performance warranty for the ESS battery module?

Performance warranty defined for the ESS: 100% DOD, 60% capacity at EOL, operating temperature range of $-30^{\circ}\text{C} \sim 30^{\circ}\text{C}$, The number of cycles is defined according to the working conditions of each area. For details, see Table 2-1. The performance warranty of the battery module is based on the ten-year warranty period and the number of cycles.

Ambient temperature may exceed operating range on IP55 model if using included climate controls. See Sol-Ark technical sales for planning outdoor sites outside of operating ...
