Canadian Solar Inc. has announced that e-STORAGE, a division of its majority-owned subsidiary CSI Solar Co., Ltd., has secured Battery Supply Agreements and Long ...

By integrating advanced energy storage solutions with meaningful Indigenous partnerships, this project enhances Ontario's clean energy grid and sets a global benchmark ...

Oneok Partners LP has completed three natural gas gathering and processing and NGL projects, including the 540-mile, 16-in. OD Sterling III NGL pipeline. Oneok also finished its 200-MMcf/d ...

From large-scale wind farms to advanced battery energy storage systems, Clearlight Energy operates a growing portfolio of clean energy projects across North America.

Canadian Solar Inc. announced today that its battery subsidiary e-STORAGE, part of CSI Solar Co., Ltd., has signed Battery Storage Agreements (BSA) and Long-Term ...

BESS is the fastest growing energy storage technology in Canada and is also the dominant storage technology in terms of capacity and number of sites. All but four projects ...

Potentia Renewables Inc. (Potentia), a leading Canadian developer, and operator and asset manager of renewable energy and battery energy storage facilities in North ...

The province's energy and capacity needs are massive, and Neoen's ambition is to be a key contributor, by developing a broad portfolio of renewable energy and storage ...

The projects will deploy approximately 370 of its SolBank 3.0 BESS containers. The containerised energy storage system features lithium iron phosphate (LFP) cells, e ...

One of the biggest clean energy storage facilities in the world -- the Oneida Energy Storage Project in Ontario -- connected to the grid this month. It's a big clean energy ...

Although pumped hydro energy storage is a well-established technology globally, Canyon Creek will be the first of its kind in Western Canada.

The proposed Project is a lithium-ion battery energy storage system connected to Hydro One Network Inc.'s existing transmission electrical infrastructure. The Project is proposed to have a ...

On July 7, 2025, Recurrent Energy, the energy subsidiary of Canadian Solar Inc., announced that its 1,200 MWh "Papago" energy storage facility in Maricopa County, Arizona, has officially ...

The Nova Battery Storage Project is a four-hour duration battery installation comprised of five phases - Phase I reached commercial operation in the second quarter 2024 (230 MW/ 920 ...

The project's first phase, involving a USD \$2 billion investment to deliver 1.4 GW of power, is set to redefine the global AI and ...

The Canyon Creek Pumped Hydro Energy Storage Project, about 13 kilometres from Hinton, Alberta, Canada, will incorporate two small, off-stream water reservoirs -- one atop the hill by ...

Today, the Honourable Tim Hodgson, Minister of Energy and Natural Resources, announced more than \$21.5 million toward cutting-edge, made-in-Canada carbon capture, ...
