Will Cape Town own a solar plant?

The city of Cape Town, South Africa, has started building a 7 MW solar plant that it will own and operate. It has also launched a tender for a 5 MW/8 MWh battery energy storage system to be built at the same site. Cape Town is set to become the first city in South Africa to own and operate its own solar plant.

Why did solar MD open its first gigawatt factory in Cape Town?

Solar MD officially opened Africa's first gigawatt factory in Cape Town to support the company's commitment to developing and manufacturing high-performance energy storage solutions that maximise the potential of renewable energy resources.

Why should Cape Town invest in solar power?

"Not only does this investment fuel Cape Town's drive towards a smarter, cleaner and more secure energy future, but it also makes this metro the base for the production of these batteries that are exported into Africa and Europe." Solar MD says the factory can produce up to 3GWh of energy storage in a year.

Where is the first gigawatt energy storage factory in Africa?

Energy storage company Solar MD has officially opened the first gigawatt factory on the continent, capable of producing up to 3GWh of energy storage annually. The 15,000-square-metre factory, located in Cape Town, has been operational since July. However, it was officially inaugurated on Saturday, 30 November 2024.
