---

From learning about history in Cairo, Giza and Luxor to floating in Siwa's desert oasis or diving in the Red Sea, here are the best things to do in Egypt.

During the meeting, Minister Esmat provided an update on several key energy projects, including the Abydos 2 solar power project, which has a capacity of 1,000 MW and ...

It will be one of the first hybrid renewable energy projects in Egypt and is expected to serve as a pilot for uptake of the technology in the country. The project will support the ...

Solar-thermal power plant using CSP technology for both electricity generation and water desalination. Solar-thermal power plants for industrial purposes. Introducing PV ...

High renewable energy penetration targets cannot be achieved without more reliance on energy storage technologies. This study provides a long-term techno-economic ...

He reiterated Egypt's national targets of boosting renewable energy's share to 42 percent of total power generation by 2030, and further increasing it to 65 percent by 2040, as ...

I've arranged the visits so you can enjoy Cairo away from the crowds, but you should know noise is an integral part of what makes Egypt Egypt. You will enjoy your visit at ...

Luxor, with its painted tombs and temples, a busy stretch of Nile and a sky full of balloons, is one of Egypt's most visually exciting destinations. When the...

Egypt is rapidly expanding its renewable energy capacity through major solar and wind projects, private

investment incentives, and international partnerships to reduce fossil fuel ...

For Egypt to achieve this, however, it must first address critical internal challenges, such as its dependence on natural gas for electricity ...

12 September, Cairo/Oslo: Scatec ASA has signed a USD denominated 25-year power purchase agreement (PPA) with Egyptian Electricity Transmission Company (EETC) for a 1 GW solar ...

Dubai-based developer Amea Power has agreed to build a 1 GW solar plant with a 600 MWh battery energy storage system (BESS) and an additional 300 MWh BESS. ...

With a total project cost of over USD 700 million, the project comprises a 1,000 MW solar PV plant combined with a 600 MWh battery energy storage system (BESS) in the Aswan Governorate, ...

The project will be constructed in two phases. The first phase of 561 MW solar + 100 MW/200 MWh battery storage is targeted to reach commercial operational date (COD) in ...

The project combines large-scale solar with battery storage capabilities. Norwegian renewables developer Scatec has commenced construction on the 1.1 GW solar ...

AMEA Power, a renewable energy developer headquartered in Dubai in the United Arab Emirates (UAE), in August announced a 300-MWh battery energy storage system ...

Oslo/Cairo, 05 May 2025: Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. The energy will be sold under a USD ...

Norway's Scatec has signed a 25-year PPA with Egyptian Electricity Transmission Co. (EETC) for a 1 GW solar and 100 MW/200 MWh battery storage hybrid project in Egypt. ...
