NLR's multidisciplinary research, development, demonstration, and deployment drives technological innovation and commercialization of integrated energy conversion and ...

That's what developing an energy storage project feels like before proper planning. The global energy storage market is projected to hit \$546 billion by 2035 (BloombergNEF), but here's the ...

SACRAMENTO - The California Energy Commission (CEC) on Wednesday approved the Darden Clean Energy Project (DCEP), the first to be permitted under the state's ...

7 Green Tech Startups With the Innovations-and the Funding-to Help Save the Planet: Rye Development's Swan Lake Energy Storage Project Renewable energy sources like wind and ...

This FOA is in coordination with DOE's Office of Clean Energy Demonstrations (OCED)'s Notice of Intent to fund \$100 million for Long ...

Although very rare, recent fires at energy storage facilities are prompting manufacturers and project developers to ask serious questions ...

The Sr. Renewables BESS Development Manager will de-risk and take next generation battery storage projects through the full development lifecycle in Brazil. These are complex portfolios ...

This funding will advance the development and demonstration of scalable innovative long duration energy storage (LDES) solutions that harness and provide stored ...

Combined with rapid decreases in the costs of battery technology and improving incentives for storage projects (notably the IRA), increasing needs for system flexibility ...

Accelerated by DOE initiatives, multiple tax credits under the Bipartisan Infrastructure Law and Inflation Reduction Act, and decarbonization goals across the public and private sectors, ...

We specialize in developing closed-loop pumped storage hydropower projects, a low-impact technology that minimizes water use and environmental impact while adding much-needed ...

The project will be owned and operated by Aypa Power, who purchased this late-stage battery energy storage project from Eolian, taking over the ...

The facility will serve as a large-scale battery energy storage system capable of charging from, and discharging into, the New York power grid. When fully functional, the ...

Although very rare, recent fires at energy storage facilities are prompting manufacturers and project developers to ask serious questions about how to design safer ...

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk ...

In this report, our lawyers outline key developments and emerging trends that will shape the energy storage market in 2025 and beyond.

Government Market News | Mary Scott Nabers Insights | Battery storage projects surge as utilities prepare for next grid era in 2026 | Battery storage projects nationwide are ...

NLR researchers are designing transformative energy storage solutions with the flexibility to respond to changing conditions, emergencies, and growing energy ...
