Will China develop new energy storage systems between 2025 and 2027?

BEIJING, Sept. 12 -- China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ensure the stability of new-type power systems.

What is the energy storage plan?

The plan outlined 21 key measures, including scaling up energy storage applications in power generation and grid infrastructure, accelerating technological innovation, and improving standardization. It also emphasized talent development and enhancing international cooperation in the sector.

What is the largest energy storage order in Southeast Asia?

Citicore's 1.5 GWh order is the largest one in Southeast Asia, while Fidra Energy's 4.4 GWh order breaks the European record. Chinese companies such as Huawei, Envision Energy, CORNEX and Sunwoda have each secured major energy storage contracts in the Philippines, South Africa, Italy and Australia.

Does China's energy storage capacity exceed pumped storage capacity?

China's installed capacity of new-type energy storage exceeded that of pumped storage for the first time at the end of 2024, according to the recent data release of China Energy Storage Alliance (CNESA).

The first phase of the Huadian Xinjiang Kashgar, China's largest standalone battery energy storage project, was commissioned on July 19. The 500 MW/ 2 GWh plant represents ...

The Inner Mongolia Alxa Energy Storage Project was officially launched] Recently, the signing ceremony Mongolia of investment promotion and cooperation of Alxa energy storage and ...

On May 26, 2022, the world's first nonsupplemental combustion compressed air energy storage power plant (Figure 1), Jintan Salt-cavern Compressed Air Energy Storage National ...

PotisEdge, a globally recognized leader in advanced energy storage solutions, has secured a major partnership with Aittub Oy in Finland for a 600MWh battery energy storage ...

Penglai Power Plant in Shandong launched the country's first integrated smart energy storage demonstration project, combining four storage technologies: lithium iron ...

Following the landmark agreement with Saudi Electricity Company (SEC) in early 2025 for the world's largest 12.5GWh grid-side energy storage project, BYD Energy Storage ...

China on Friday unveiled an action plan to promote the development of new forms of energy storage between 2025 and 2027, amid efforts to support green energy transition and ...

According to data from China's Energy Storage Application Branch (CESA), mainland China has seen a surge in energy storage activity, with 1,468 new project ...

On February 28, 2025, the TEDA Power Smart Energy Long-Duration Energy Storage Power Station project was officially launched, marking Tianjin's first long-duration ...

Recently, a number of energy storage companies have recently made new progress in strategic cooperation and global market expansion. 01 PotisEdge Energy Completes ...

It will invest around 500 million dollars on the energy storage project with an annual output of 10GWh. The registered capital of EVE-Linyang is 15.5 million USD, of which EVE ...

In June last year, a 100-megawatt-hour sodium-ion energy storage project began operation, representing the first large-scale commercial use of sodium-ion energy storage ...

Original By NLS The world's largest single-site electrochemical energy storage power station was connected to the grid on December 30, 2025. The Envision Jingyi Chagan ...

Recently, Spanish renewable energy developer Matrix Renewables announced that it has signed a full-cycle Engineering, Procurement, and Construction (EPC) agreement ...

Not long ago, the first Shanghai source-grid-load-storage integrated zero-carbon hydrogen storage project in which Schaeffler participated was launched at the Shanghai ...

The largest energy storage project in the electric grid has been launched - Energy China Network has established a dedicated platform for new energy services, specializing in ...

Energy storage project launched
