-----

Gresham House Energy Storage Fund, a U.K.-based fund investing in utility-scale battery storage systems, announced the signing of two sale and purchase agreements for the ...

In summary, ensuring effective sealing and waterproofing of energy storage cabinets is multifaceted. Critical elements include appropriate material selection, ...

Press release of commercial commissioning of Sanjgon Battery Energy Storage, Boralex's first energy storage facility in operation in North America.

If you're knee-deep in energy storage projects or designing outdoor power systems, you've probably lost sleep over connectors failing in rainstorms. Our target audience? Engineers, ...

Ever wondered who's geeking out over waterproof and ventilated energy storage cabinets? Spoiler: it's not just engineers. The target audience here includes:...

GSL ENERGY has been a pioneer in the LiFePO<sub>4</sub> lithium battery manufacturer since 2006 and has provided ESS (Energy storage system) solutions to residential and commercial customers ...

A geomembrane is a synthetic, impermeable sheet that controls the movement of liquids and gases in a structure, system, or project. Geomembrane lining systems can be used to ...

Through a joint approach with Walpole Island First Nation, the Tilbury Battery Storage Project was renamed as the Sanjgon Battery Energy Storage.

An innovative thermal energy storage system in use at a New York state university campus is an example of the long-term energy vision for the college, and a blueprint for other ...

Wait, no--actually, the 2024 Global Energy Storage Report reveals water damage accounts for 34% of battery storage system failures in coastal areas alone. When that IP67-rated chassis ...

Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in ...

This following blog on geomembranes in pumped storage schemes was submitted by CarpiTech A geomembrane is a synthetic, impermeable sheet that controls the movement of liquids and ...

Rongke Power China has just brought the world's largest vanadium flow battery energy project online, marking a massive milestone in long-duration grid-scale energy storage.

Imagine your storage units surviving monsoon seasons while maintaining 98.6% round-trip efficiency. That's what Tier-1 manufacturers like CATL are achieving with multi-layered ...

The storage industry anticipates this to be passed into law in 2022, and that it will apply to projects that achieved commercial operation after December 31, 2020, reducing the risks and ...

Explore how Energy Storage Systems in Hurricane-Prone Regions go beyond waterproofing to ensure resilient, reliable solar power during storms.

The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to a clean energy ...

New York State has some of the most rigorous safety standards for energy storage projects in the country, reinforced by independent nationally recognized experts to ensure full compliance.
