Who is grid Africa?

Grid Africa is a leader in solar energy solutions, dedicated to advancing the adoption of renewable energy across Africa. Our mission is to drive a sustainable future by providing innovative solar technologies that enhance energy efficiency and reduce costs. WHY CHOOSE US? Our vision is to power Africa's future with clean, renewable energy.

How much does solar cost in Africa?

Capital costs for solar are 3 to 7 times higher in Africa than in developed countries, and the continent only receives 3% of global energy investment - far from the \$200 billion per year needed to achieve energy access and climate goals.

How much solar capacity is installed in Africa in 2024?

Published in partnership with RMI and supported by GET.invest, this report serves as a key reference for policymakers, investors, and industry professionals seeking insights into Africa's evolving solar sector. 2.4 GW of new solar capacity was installed in Africa in 2024.

An Energy Storage Cabinet, also known as a Lithium Battery Cabinet, is a specialized storage solution designed to safely house and protect lithium-ion batteries.
