What incentives are available for energy storage systems?

The Self-Generation Incentive Program (SGIP) offers cash rebates for installing energy storage systems. Rebates can go as high as \$1,000 per kWh for low-income or high-fire-risk areas. New York (NY-Sun Program) New York offers storage incentives through the NY-Sun initiative, helping reduce battery system costs by thousands of dollars.

How do I claim a battery storage credit?

Battery storage technology must have a capacity of at least 3 kilowatt hours. File Form 5695, Residential Energy Credits with your tax return to claim the credit. You must claim the credit for the tax year when the property is installed, not merely purchased.

Does Green Mountain Power offer energy storage?

In fact, Green Mountain Power offers a few different programs for energy storage: a bring-your-own-device program that provides a rebate for whatever battery you want to install, as well as a Tesla Powerwall Pilot program. Did you find this page helpful?
