Should you buy a portable power station?

We find this level of portable power station to be a little awkward, basically the teenager version of the device. It's bigger than the compact units but not quite competitive with true midrange options, especially when you look at the price. The 3-year warranty is less than ideal, especially from a newer company.

Is a 100W solar power station a good choice?

A new compact power station by an upcoming brand with bigtime battery experience. Our favorite aspect is the fast AC charging combined with >20ms UPS transfer time. The 100W solar charging matches the top brands. Although testing is limited and brand recognition still has a long way to come, this may be a real contender.

What is the best solar generator for home backup in 2025?

1. Best Overall Option: Jackery HomePower 3000Key Details: If you're looking for the most well-rounded solar generator for home backup in 2025, the Jackery HomePower 3000 stands out as our top pick. It delivers a robust 3,600W of continuous power (with a 7,200W surge), backed by a durable 3,072Wh LiFePO4 battery that's rated for 4,000+cycles.

What is the best portable power station?
