Why does Gothenburg invest in 'green and energy-efficient buildings'?

The high share of investments in the category 'green and energy-efficient buildings' could be explained by the combination of urban growth with targets to reduce GHG emissions. This high share may reflect a policy priority at this time for Gothenburg.

What projects are financed by green bonds in Gothenburg?

These are just a few of the many projects have been financed in Gothenburg by green bonds: Lackarebäck waterworks and cleaning filters- water treatment using ultrafiltration,using the largest ultrafilter ever built in Scandinavia. GoBiGas - large-scale production of biogas by gasification.

Is the energy sector a good investment for Sweden?

"Developments in the energy sector present significant opportunities for Sweden," says Joel Görsch,investment advisor,for automotive and mobility at Business Region Göteborg. "The transition from petrol and diesel to electricity has resulted in much of a car's value shifting to its battery.

Is Gothenburg a good place to invest in green bonds?

The conditions mentioned below are drawn from studies about Sweden in general (Ferlin et al., 2020; Torvanger et al., 2021), because the country has proven to be a world leader when it comes to green bond activity. Gothenburg is a large city to European standards and the largest employer of the city.

Northvolt's second site will also be in Sweden, as part of a joint venture with Volvo in Gothenburg. But its third is the subject of transatlantic machinations.
