Can anti-dumping measures be imposed on imports?

If an investigation finds that importers have engaged in dumping and that this has caused injury to the domestic industry of the importing country, anti-dumping measures may be imposed on imports of the product concerned. These measures can take one of the following forms

Does EU anti-dumping have a material retardation problem?

Material retardation of the establishment of a Union industry. Most EU anti-dumping investigations have concerned present material injury, although many have dealt with threat of material injury. Few EU anti-dumping investigations have concerned material retardation. The

How will the anti-dumping investigation affect choline chloride imports?

The anti-dumping investigation will determine whether action should be taken (e.g. imposition of an anti-dumping duty). Today the Commission imposed anti-dumping measures on imports into the EU of choline chloride from the People's Republic of China.

What if imports are dumped into the EU?

only if: 1. Imports into the EU are found to be dumped; 2. The dumped imports have caused or threaten to cause injury to the relevant Union industry; and 3. The imposition of anti-dumping measures would not be against the Union interest. 4. In reaching the above findings, the Commission must observe applicable procedural requirements
