How much does the METI subsidy cover a Bess project?

Sho's colleague, Eku Energy Japan managing director Kentaro Ono, explains that the METI subsidy covers up to 30% of the Capex cost for large-scale BESS. The Tokyo Metropolitan Government scheme, meanwhile, is for projects both in and outside the Tokyo area and covers up to 50% of the Capex.

Can EKU energy sell Hirohara Bess & eshi in Japan?

Kentaro Ono says that Hirohara BESS' tolling deal and the Eshi project's LTDA contract are two of three commercialisation pathways Eku Energy sees potential for in Japan. The third is a full merchant model. Ono says the developer wants to hold a diversified portfolio representing different risk and reward appetites for investment.

How big is Japan's energy storage capacity?

Japan installed about 190 MW of new energy storage capacity in 2022, doubling its 2021 total of 92 MW. Projections indicate that Japan's cumulative storage capacity could reach over 29 gigawatts (GW) by 2033. This upward trend mirrors global patterns.

Telecom giant NTT Group's energy subsidiary, NTT Anode Energy, has officially launched its energy storage business by commissioning 3 high-voltage grid-scale Battery ...

The 5MWh outdoor liquid cooling BESS is a high energy density integrated system consisting of battery cluster units, BMS, fire suppression system, lighting system, ...

Ancillary services revenues available for battery energy storage system (BESS) assets have been much higher in recent months than in other markets where GridBeyond is ...

27 grid-scale BESS projects secure 34.6B yen through METI's FY2024 storage subsidy program January 27, 2025 Toyota Tsusho's Eurus Energy and Terras Energy were ...

A total of 37 projects were awarded 36.3 billion yen in subsidies under METI's FY2025 program for supporting the introduction of energy storage, the scheme's operator ...

RE-RE connected its first grid-scale battery storage project, a 2MW/8.2MWh facility in Sakurai City, Nara Prefecture, to the grid in December 2025, aggregator RE100 ...

Yachiyo Green Energy will enter into grid-scale battery storage with a 2MW/8MWh facility in Kuwana City, Mie Prefecture, in the Chubu TSO area, the company announced on ...

The Japan Energy Hub PPA database shows it has, among others, been involved in a 1.5MW off-site deal with Skylark Holdings. Aiming to capitalize on an increasing need for ...

Daihen entered the grid-scale BESS market in 2023, when it delivered a 1.5MW/4.6MWh system for Eurus using GS Yuasa batteries alongside EMS and other ...

Japan allocated 1.4 GW of battery energy storage (BESS) in the latest round of its Long-Term Decarbonization Auction (LTDA). The results showed BESS was the most ...

FFD Power's Cabinet Battery Energy Storage System (BESS) provides a comprehensive and scalable solution for commercial and industrial applications, enabling the creation of robust off ...

Flexible, Scalable Design For Efficient 3MWh Energy Storage System. With 1.5MW Off Grid Solar Kits For A Factory, City, or Town. EXW Price: US ...

The facility will use 20 417kWh cabinet-type battery units marketed under the company's brand. Sustainable Holdings said it plans to continue developing grid-scale battery ...

Our Battery Energy Storage System (BESS) can be operated under on-grid and Off-grid operation mode. The BESS system is controlled to cut off the grid connection within 10 seconds and ...

Gurin Energy is developing a pipeline of utility-scale battery energy storage system (BESS) projects to enable greater flexibility of the grid and support the increased use of ...
