Our in-house construction team ensures precision in every phase of the BESS installation process. We always maintain the highest standards of quality and safety throughout the ...

Our team of experts can help you configure your cabinet solution based on your unique needs. You can purchase both batteries and cabinets in a single purchase order.

AZE"s outdoor battery cabinet includes standard features with battery support, security and sealing abilities and reversible racking rails, 500W ...

Our in-house construction team ensures precision in every phase of the BESS installation process. We always maintain the highest standards of ...

EverExceed VRLA battery cabinets are very durable, and easy to install. Engineered for use with most type of battery terminal models, these ...

We can deliver the EPC battery energy storage solution, including detailed design, tier 1 technology integration and modular engineering, project management, and long-term service ...

The Battery-SideCar is available with both traditional VRLA batteries as well as high temperature batteries. Cabinet solutions can be integrated with the BatteryInformer™; providing battery state ...

Our in-house and on-site services enable us to build everything your battery storage construction project requires efficiently, on time, and within budget.

BEI Construction has the engineering, electrical and implementation expertise required on energy storage
