Who is constructing a solar power plant in Lesotho?

The government has also engaged China Sinoma International Engineering and TBEA Xinjiang New Energy to construct solar power plant that will produce 70 MW. Lesotho Electricity and Water Authority (LEWA) Lesotho Electricity Company (LEC) Lesotho Highlands Development Authority (LHDA)

What is Lesotho solar energy society?

Lesotho Solar Energy Society (LeSES) acts as a platform for the industry and clean energy expert groups to exchange information and implementation of an industry code of practice. Hlotse, Leribe, Lesotho. Decentralized renewable energy production (biogas and solar) and energy saving technologies (stoves), technical training.

Is Lesotho still lagging behind on energy investment?

In spite of the aforementioned investment incentives that have been formulated by Lesotho, the country is still lagging behind on the key incentives essential for investment in energy, i.e. clearly formulated policy targets and incentives such as the REFIT. 3.3.1 Barriers

How much hydropower does Lesotho generate?

Currently, Lesotho generates 72 megawatts of hydropower through the 'Muela Hydropower plant, which does not satisfy domestic demand. The country will generate 80 MW following the construction of the Polihali Dam expected to be completed in 2028. There is potential, and there are plans, to expand hydropower capacity and establish wind farms.

With about 70% of its electricity currently imported, mainly from South Africa, Lesotho aims to reduce this dependency. This solar plant is expected to provide a sustainable energy source, ...
