We provide facility owners, campuses, developers, and utilities with experienced experts and patented tools to design and implement microgrids with renewable energy delivery systems.

The NavePoint Commercial Series cabinets come pre-assembled for easy setup and include pre-installed heavy-duty locking casters for mobility, and leveling feet for use when ...

Microgrids are localized grids that can disconnect from the traditional electrical grid and operate independently, providing a reliable and sustainable power supply.

This Cabinet is built with high-quality aluminum/steel structures. With vented doors and cooling fans, it provides excellent air circulation for servers and other devices.

From design to deployment to O& M, BoxPower manages the full microgrid lifecycle with speed, precision, and technical depth.

Assessment of electricity storage for a microgrid The client is a leading company specialising in energy supply, water production, distribution, and handling of waste treatment ...

Turnkey microgrid control solutions include electrical system protection, cybersecurity, real-time controls, integration with existing infrastructure, and more.

Services include product consulting, such as product-market fit analyses backed by desk research, customer interviews, and code compliance. For ...
