The California Energy Commission's Energy Research and Development Division supports energy research and development programs to spur innovation in energy efficiency, renewable ...

Understand what's important in an RFP for BESS procurement, components and BESS quality inspections. Improve your battery energy storage supply chain and FAT planning.

If you are interested in learning more information about a particular bid or proposal, please refer questions to the agency requesting the good or service. When reading solicitations, be sure to ...

Battery energy storage Microgrid control systems: typically, microgrids are managed through a central controller that coordinates distributed energy resources, balances electrical loads, and ...

The U.S. Army Corps of Engineers Engineering District Louisville is conducting a Request for Information (RFI) for battery components of a Battery Energy Storage System ...

Battery energy storage 3. Microgrid control systems: typically, microgrids are managed through a central controller that coordinates distributed energy resources, balances electrical loads, and ...

In this Energy Storage News Webinar, CEA's experts Jeff Zwijack, Associate Director of Energy Storage, and Aaron Marks, take a deep dive into BESS procurement ...

If you're reading this, you're probably either a project manager drowning in spreadsheets or a C-level executive Googling "how to avoid energy storage procurement ...

This chapter supports procurement of energy storage systems (ESS) and services, primarily through the development of procurement documents such as Requests for Proposal (RFPs), ...

From small commercial facilities to large-scale industrial operations, our battery storage and microgrid systems are designed to scale with your needs. Whether you require energy backup ...
