Do you carry IP55 enclosures?

We carry IP55 enclosures that demonstrate almost complete protection from particles and a good level of protection against water. All of our enclosures rigidly adhere to the guidelines, so you can count on outstanding and cost-effective enclosures. Refer to the chart below for the IP55 standard protection specifications and ratings:

Are IP55 enclosures suitable for street use?

Yes, IP55 enclosures are appropriate for street use. They are designed to handle rain, splashes, wind-driven moisture, and general outdoor exposure within their declared operating limits.

What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

What are the benefits of IP55 enclosures?

2. Extended Lifespan: The protection provided by IP55 enclosures helps to prevent damage caused by dust and water, thereby extending the lifespan of the equipment. 3. Cost-Effective: Using IP55 enclosures can reduce maintenance and repair costs over the equipment's lifespan, as the equipment is less likely to be damaged by environmental factors.
