New single-family homes must be wired so energy storage systems can easily be added later. To that end, the standards require a minimum 225-amp busbar, four backed-up ...

By understanding the array of options available, you can better navigate the complex landscape of energy storage and contribute to a cleaner, more sustainable energy ...

STATEN ISLAND, N.Y. -- Applications for 58 battery energy storage systems were approved by the NYC Department of Buildings in 2025 and another 98 are currently ...

"Through the Resilient Energy Studio, NYCEDC and Newlab are supporting the next generation of startups as they define the future of urban energy storage," said NYCEDC President and CEO ...

In addition, a swath of 27 New York counties is designated as a U.S. National Science Foundation Energy Storage Engine in Upstate New York super-boosts this industry hub with a robust ...

Energy storage solutions for multi-family residences are pivotal in enhancing energy efficiency, promoting renewable energy integration, ensuring grid stability, and lowering ...

In a situation similar to what Granby faced this summer, New Milford residents are balking at a proposed 140 megawatt battery energy storage farm less than 2 miles from the ...

Today, the U.S. Department of Energy (DOE) announced a \$325 million funding opportunity for the new Programa de Comunidades Resilientes, funded by a second tranche of ...

Importance of Compliance Solar electricity from residential PV systems in combination with battery storage is part of meeting California's climate goals. California is aiming to reduce its ...

NV Energy proudly serves Nevada with a service area covering over 44,000 square miles. We provide electricity to 2.4 million electric customers throughout Nevada as well as a state tourist ...

A Cleaner World Through Better Energy New Release Introducing the Supercap Energy Wall-Mount family of Energy Storage Systems. This revolutionary energy storage device is rated for ...

In addition, a swath of 27 New York counties is designated as a U.S. National Science Foundation Energy Storage Engine in Upstate New York super ...

The New York State Energy Research and Development Authority (NYSERDA) today announced over \$5 million is now available to support innovative energy storage ...

We start with a summary of the Retail and Residential Energy Storage Implementation Plan, outlining NYSERDA's strategy for advancing energy storage deployment across New York.

The proposed Implementation Plan filed by NYSERDA and approved by the PSC with modifications will help facilitate the development of 3,000 MWs of new bulk energy ...

Governor Kathy Hochul today announced the launch of New York's first Bulk Energy Storage Request for Proposals (RFP), intended to procure one gigawatt (GW) of bulk ...

As part of the EP family, New Energy BD, EP Equipment contributes with solutions for energy storage & mobile charging, helping partners accelerate electrification with green energy and ...

Battery energy storage will be increasingly necessary to store power from renewable energy, like wind and solar, over the coming years to create a more reliable electric grid that delivers clean ...
