The proposed Implementation Plan filed by NYSERDA and approved by the PSC with modifications will help facilitate the development of 3,000 MWs of new bulk energy ...

Coulomb Solutions Inc. (CSI), today announced that it has supplied Critical Loop its newest 2.33 MWh mobile Battery Energy Storage System (BESS) with an integral 1 MW ...

China aims to further develop its new energy storage capacity, which is expected to advance from the initial stage of commercialization to large-scale development by 2025, with ...

Government Market News | Mary Scott Nabers Insights | Battery storage projects surge as utilities prepare for next grid era in 2026 | Battery storage projects nationwide are ...

Liquid air energy storage could be the lowest-cost solution for ensuring a reliable power supply on a future grid dominated by carbon ...

Foreword Stepping up efforts to develop new energy storage technologies is critical in driving renewable energy adoption, achieving China's 30/60 carbon goals, and establishing a new ...

Energy storage beyond lithium ion explores solid-state, sodium-ion, and flow batteries, shaping next-gen energy storage for EVs, grids, and future power systems.

Energy storage is transforming the energy sector through its ability to support renewable energy and reduce grid reliance on carbon-intensive resources.

The New York State Energy Research and Development Authority (NYSERDA) today announced over \$5 million is now available to support innovative energy storage ...

The Energy Department is developing new technologies that will store renewable energy for use when the wind isn't blowing and the sun isn't shining.

The Battery Energy Storage System Guidebook (Guidebook) helps local government officials, and Authorities Having Jurisdiction (AHJs), understand and develop a battery energy storage ...

FranklinWH has set a new global benchmark for home energy reliability by becoming the world's first residential battery system to earn TIA-942 Rated 1-4 certification, the same ...

Power Up Connect, a Maryland-based manufacturer of mobile, zero-emission power solutions, marked a major milestone with a ribbon-cutting ceremony last week celebrating the ...

The Company develops solar and Battery Energy Storage System (BESS) projects that sell electricity to utilities, commercial, industrial, municipal and residential off-takers.

This FOA is in coordination with DOE's Office of Clean Energy Demonstrations (OCED)'s Notice of Intent to fund \$100 million for Long ...

What is energy storage? Energy storage is the capturing and holding of energy in reserve for later use. Energy storage solutions for electricity generation include pumped-hydro ...

The New York Solar Energy Industries Association has recommended nine ways for the administration of New York City Mayor-elect Zohran Mamdani to speed solar and ...

The Battery Energy Storage System Guidebook contains information, tools, and step-by-step instructions to support local governments managing battery energy storage ...
