How much does a solar system cost in New Zealand?

In New Zealand, the average cost of a solar system for a home is around \$10,000 without a battery and \$20,000 with a battery. What does a home battery do? When your solar system produces excess energy to what you are consuming on-site, it will charge your home battery.

Are futurasun 380kw solar panels suitable for NZ conditions?

Look no further, SolarKing has exclusive rights to FuturaSun European designed 380kW solar panels, which are perfect for NZ conditions and come with great product warranties. Looking for Solar Racking to mount your Solar Panels - we can help with that too.

What is a PowerVault solar cabinet?

The PowerVault is MEDA's flagship prebuilt solar cabinet-- our most powerful and scalable system to date. Designed to meet the needs of serious off-grid homes, rural properties, and remote commercial setups, it comes fully assembled with premium Victron and Dyness components and is housed in a heavy-duty, IP-rated cabinet.
