Why do New Zealand homes need battery storage?

In most New Zealand homes, a large proportion of the energy produced by solar panels is sent back to the grid because it's generated when it's not needed, i.e., the middle of the day. However, adding home battery storage to a new or existing solar power system allows you to store your unused energy.

Are prefab tiny homes a good choice in New Zealand?

Our prefab tiny homes in New Zealand are made with high-quality materials and are designed to be easy to assemble, making them an ideal choice for those who want a DIY option. With our easy-to-follow instructions, you can have your off-grid cabin up and running in no time.
