What is an IP55 rating in outdoor cabinets?

The IP rating on enclosures is an international protection standard that indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles, and the ingress of water.

Where can I find IP55 enclosures?

Find IP55 enclosures at Bison Profab,offering reliable protection against dust and low-pressure water jets. Learn about IP55 specifications and ideal uses.

What is a standardized IP55 protection code?

The IEC's standardized International (or Ingress) Protection Code system is used to designate the protective capacity of an electrical enclosure. The two-digit code shows the protection against particles (the first digit) and water (the second digit). Continue reading to learn more about IP55 Standard Protection Specifications.

What is the IP rating on a cabinet?

The IP rating on enclosures is an international protection standardthat indicates how well the cabinet is protected against two factors: the ingress of dust or solid particles,and the ingress of water. The IP55 marking includes two digits that determine the nature and intensity of the enclosure's protection against external influences.
