-----  
What is a 30kw/80kwh power system?

Versatile configuration: use 30kW/80kWh as a basic build block to build up a larger system. Commercial and industrial facility power back up such as office building, warehouse, company data room, doctor office, municipal building, school, gym, demand change mitigation, solar power plant energy storage, micro-grid battery solutions, etc.

What is a 80kWh battery?

The 80kWh battery meets energy needs for residential,commercial,emergency,and industrial applications. Price: Click The Button Below To Get A Discount Price. The 80kWh battery pack consists of five 16kWh LiFePO4 battery modules.

Can a DeLong 80kWh battery be used as a solar energy system?

DeLong's 80kWh battery pack can be connected to an inverter or PCS to form a solar energy system. This system can output a voltage of 512V. You can use it in grid-tied,off-grid,or hybrid modes. The 80kWh battery meets energy needs for residential,commercial,emergency,and industrial applications.

How many volts can a 80 kWh battery output?

This system can output a voltage of 512V. You can use it in grid-tied,off-grid,or hybrid modes. The 80kWh battery meets energy needs for residential,commercial,emergency,and industrial applications. Price: Click The Button Below To Get A Discount Price.

Our products are all packed in cartons or wooden boxes that meet international standards, and we ensure that all products can reach customers safely and quickly.

The rack-mounted low-voltage lithium battery pack PRO series, manufactured with long-life and low-maintenance technology, provides modular and scalable energy storage systems to meet ...
