What is a kempower distributed charging system?

Kempower Distributed Charging Systems are tailored to your needs. The Kempower Power Unit's rack-style structure allows individual cabinets to be furnished with 1-4 power modules, each providing 50 kW of charging power capacity in 25 kW granularity. With single-, double- and triple-cabinet options, each Power Unit can support 1-12 charging points.

Are our power supply cabinets UL compliant?

We make sure to meet strict industry standards when it comes to the design and manufacture of our power supply cabinets. We are compliant with the following standards: IEC 60297, UL 508A, NEMA 250. Our facility is manned by industry-leading experts in the field of power supply and control.

How many charging plugs can be connected to a kempower power unit?

Connect 1-8, and soon MORE, up to 12 charging plugs, Kempower Satellites or other charging dispensers, to a 600 or 1,200 kW Power Unit. Each Kempower Power Unit features a unique Power Distribution Module that increases utilization rate, maximizing ROI.

What is a power supply cabinet?

Our power supply Cabinets are designed to protect your critical equipment from power surges and voltage spikes from the toughest operation condition. Our distribution cabinets can be made from materials such as Aluminum, Steel, or Stainless Steel. We provide a variety of outdoor power supply cabinets to meet the needs of different industries.

Product Description Base station energy cabinet: a highly integrated and intelligent hybrid power system that combines multi-input power modules (photovoltaic, wind energy, rectifier ...)
