---

A self-contained AC unit from Daikin is an ideal option for multi-story building projects where efficiency, reliability, indoor air quality and acoustics are top priorities.

GenShift provides integrated Onsite Power Generation solutions for Cold Storage to reduce energy consumption, lower costs, boost productivity -- all while lowering your carbon footprint. ...

The Soeteck cabinet micro data center solution is a highly integrated, compact IT infrastructure. It integrates servers, storage, power, and ...

Self-contained rack cooling solutions offer increased efficiency for your data center. Browse our full line of Vertiv and Liebert Rack Cooling Units today!

Whether retrofitting existing infrastructure or building a decentralized energy network, this cabinet empowers businesses to cut costs, enhance sustainability, and ensure uninterrupted power.

It integrates servers, storage, power, and cooling in one cabinet, reducing deployment space and simplifying installation, management, and maintenance. Ideal for SMEs, branch offices, and ...

Available in eight pre-built standard options with four rack sizes and two voltages (120V or 208V) to choose from, the solution incorporates a rack power distribution unit (PDU), embedded ...

Elephant Power's Cabinet Energy Storage System offers modular, scalable energy storage for small factories, villages, and microgrids. With PV integration, UPS backup, and cooling ...

House your entire edge computing infrastructure in a single secure, prefabricated micro data center cabinet
