Where is a Bess project being built in Senegal?

The BESS is to be built at the Tobe substation in Thies, Senegal. It will be operated by Infinity Power's 158.7 MW wind farm in Senegal, Parc Eolien Taiba N'Diaye (PETN)

Will Senegal be a low cost producer of electricity?

Expected to be one of the lowest cost producers of electricity in Senegal, the project is helping reduce the cost of electricity generation in the country, which has one of the highest generation costs in Sub-Saharan Africa. About Infinity Power Infinity Power is Africa's largest pure play renewable energy provider.

Where is Bess installed?

The BESS will be installed at the Tobe substation in the city of Thies, and will be operated alongside Infinity Power's Parc Eolien Taiba N'Diaye (PETN) 158.7MW wind farm. Construction is scheduled to start next year, while the system is expected to come online by 2025.

What equipment does Bess offer?

Multi-zone smoke detectors, clean-agent fire suppression and external horn strobes are standard, on-board equipment giving you peace-of-mind. Our BESS solutions are: Built, tested and optimized for the North American market for commercial projects. Equipped with integration controls for solar PV and generators
