On December 28, 2025, the installation of the nuclear island for Unit 1 of China HUANENG Shidao Bay Nuclear Power Expansion Phase I Project officially began.

The participation of Chinese companies not only exports technology but also supports Egypt's energy security and export-oriented strategy through localized production. ...

In a significant move for its renewable energy sector, Oman's Nama Power and Water Procurement Co. (Nama PWP) has finalized a landmark deal with China Energy ...

The Oman Future Fund (FFO), under Oman's sovereign wealth fund, has decided to invest 60 million Omani Riyals (USD 156 million) in United Solar Polysilicon (SPC) for the ...

China's Central New Energy Holding Group has signed a memorandum of understanding (MoU) with EGN, a data centre operator, to jointly advance solar power projects ...

CPECC to build Oman's 500 MW Ibri III solar project with 100 MWp battery storage, boosting renewable capacity under Oman Vision 2040.

Located in Ibri City, Oman, the project is a key component of Oman's energy diversification and its "Vision 2040". It involves the construction of a 700MW PV power station ...

JA Solar has revealed plans to invest CNY 3.957 billion (\$542 million) to build a factory in Oman with 6 GW of solar cell capacity and 3 ...

Construction of the Ibri Solar Photovoltaic (PV) Project, the largest renewable energy facility in Oman, has been completed. Built by Power Construction Corporation of ...

The Ibri Photovoltaic Project. The Ibri Photovoltaic Project, located approximately 30 kilometers northwest of Ibri in Oman, has a total installed capacity of 607 megawatts, covering an area of ...

MUSCAT: The China Power Engineering Consulting Group International Engineering Co (CPECC), a Chinese state-owned energy-sector engineering powerhouse, ...

Under the Memorandum of Understanding, inked on Aug. 25, Oman-based EGN will take the lead in developing an integrated "generation-grid-load-storage" green energy ...

The \$564 million solar farm will be wholly funded by China's JA Solar and will be built in the Sohar Freezone with a production capacity of 6GW annually over a site of 33 ...

With an impressive installed capacity of 607 MWp, the plant spans 1,154 hectares and has been operational since 2021. It now serves as a crucial provider of energy to cities and villages ...

China Power Engineering Consulting Group International Engineering Co (CPECC), a Chinese state-owned energy engineering company, has been awarded an EPC contract for ...

China Power Engineering Consulting Group (CPECC) has signed the engineering, procurement and construction (EPC) contract for Oman's 500MW Ibri 3 solar independent ...
