-----

Today (29 August), the Victoria government announced it has streamlined the planning process to deliver the state's "largest" battery energy storage system (BESS), ACEnergy's ...

A 500MW solar farm in Colbinabbin and a BESS (battery energy storage system) in Dederang are the latest projects approved via the DFP, expected to help drive down power ...

Today (29 August), the Victoria government announced it has streamlined the planning process to deliver the state's "largest" battery energy storage ...

A 150 MW solar farm and a 250 MWh battery energy storage system proposed for Victoria's Central Highlands by British renewables ...

Australia's Victoria government has expedited plans for a 400MWh battery energy storage system (BESS) and a 500MW solar-plus-storage project through its Development ...

The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as it seeks to accelerate the development of ...

The Victorian Government has approved the state's largest-ever battery storage project - a one-gigawatt facility that it says will ...

The project is located around 324km northeast of Melbourne. Image: Birdwood Energy. Australia's Victoria government has fast-tracked the approval process for a 1.8GWh ...

Victoria is the home of big batteries and has legislated storage targets of at least 2.6 GW by 2030 and 6.3 GW

by 2035 to provide crucial support for more renewable capacity.

Plans for what could be the biggest battery in Victoria - although not by much, and probably not for long - have been given the ...

The 360MW Mortlake solar-plus-storage project in Victoria, Australia, has been fast-tracked for development by the state government.

The Victorian Government's new streamlined renewable energy planning process is delivering critical renewable storage capacity sooner with the approval of the 350MW Joel ...

The Victorian government has fast tracked the approval of what is to be one of the state's biggest battery energy storage systems as ...

A solar farm and big battery proposed for development north of Geelong has been fast-tracked for state approval after being named as ...

Plans for what could be the biggest battery in Victoria - although not by much, and probably not for long - have been given the green light for development by the state Labor ...

Victoria fast-tracks battery storage project for a sustainable energy future: The Victorian Government is assisting a renewable energy developer fast track its Battery Energy ...

Draft strategy says batteries of all sizes - and deep storage - are critical to Victoria's future energy infrastructure. And it calls for all ...

A private developer is planning to build a large-scale battery storage facility on bushfire-prone land in central Victoria, sparking community debate. South Energy is hoping to ...
