---

The Victoria government in Australia has approved a 300MW/1,200MWh battery energy storage system (BESS) in Gippsland and a 332MW solar PV power plant with ...

Australia's Victoria government has expedited plans for a 400MWh battery energy storage system (BESS) and a 500MW solar-plus-storage project through its Development ...

Yanara, formerly BrightNight Asia Pacific (APAC), has selected Gamuda Australia as its project delivery partner for the AUD-700-million (USD 468.6m/EUR 399m) Mortlake Energy ...

Six energy storage projects, totalling 3,626MWh of energy, have secured support via the Australian government's Capacity Investment Scheme.

Draft strategy says batteries of all sizes - and deep storage - are critical to Victoria's future energy infrastructure. And it calls for all ...

Developer Elgin Energy has secured grid connection approval from AEMO for a 150MW solar-plus-storage site in Victoria, Australia.

These incentives are designed to accelerate the deployment of energy storage systems, which play a crucial role in enhancing grid stability, integrating renewable energy ...

The government of the Australian state of Victoria has fast-tracked the approval of a 330-MW solar farm with a proposed 250-MW battery energy storage system, located near ...

Australia's Victoria government has fast-tracked a 400MWh battery energy storage system (BESS) and 500MW solar-plus-storage project via its Development Facilitation ...

Australian renewables developer Edify Energy has submitted plans for a 300MWac solar-plus-storage site in Victoria to Australia's EPBC Act.

Canadian Solar subsidiary e-STORAGE will supply its SolBank 3.0 technology for the project. Image: FRV Australia. Fluence, a battery storage system integrator and clean ...

During peak daylight hours, solar panels and wind farms generate substantial energy, often exceeding real-time consumption. The Megapack system offers a strategic ...

This ambitious endeavor involves a 200MWh battery energy storage system (BESS) paired with a solar photovoltaic (PV) power plant, highlighting Victoria's commitment to ...

The project, named the Nowingi Solar Power Station, is set to combine a high-capacity solar farm with one of the largest battery storage systems proposed in the region, ...

The SEC, a state-owned energy company in Victoria, Australia, has confirmed that construction has started on the SEC Renewable Energy Park.

Canadian Solar subsidiary e-STORAGE will supply its SolBank 3.0 technology for the project. Image: FRV Australia. Fluence, a battery ...

Additionally, Elgin Energy's 500MWh Barwon Solar Farm, another solar-plus-storage site in the Little River region, was selected for the program the previous month. In ...
