What is Vienna energy's solar energy expansion programme?

Wien Energie's solar energy expansion programme is based on stakeholder participation and cooperation. Vienna's largest community-funded solar power plant went into operation in Unterlaa in May 2020. Thousands of climate activists from Vienna and the surrounding region bought into the project by purchasing investment packages.

How many photovoltaic plants does Wien Energie have?

The utility company now operates over 260 photovoltaic plants with a total capacity of nearly 60MW and is expanding its position as Austria's leading solar energy provider. "Wien Energie is driving the city's climate protection efforts.

How can we expand renewables in Vienna?

The key resource for the expansion of renewables in Vienna is our roofs," explains Michael Strebl, CEO of Wien Energie. "With our existing green power plants we can already produce enough solar electricity for the equivalent of 25,000 households - that's more households than in the 1st and 8th districts combined."

Why should you choose a solar power plant in Vienna?

Our solar power plant in Vienna's Liesing provides the optimum environment in the city for species requiring protection. Our citizen solar power plants allow people to financially participate in PV systems, benefiting from a secure investment and favourable tariffs.

El Salvador Energy Storage Power Customization Company We innovate with solar photovoltaic plant design, engineering, supply and construction services, contributing to the diversification ...

boden pumped-storage project in Austria. Vienna utility Wien Energie GmbH seeks expressions of interest from potential partners to develop the 300-MW Pfaffe boden pumped ...

Vienna's Ernst Happel Stadium has completed the installation of a solar array capable of generating 3.8 GWh of energy annually, with full operation expected by the end of ...

A solar system has been installed on the roof of Vienna's Ernst Happel Stadium, marking a significant step toward sustainability. The array features over 9,300 solar panels, 80,000 ...

Oslo/Cairo, 05 May 2025: Scatec ASA has commenced construction of its 1.1 GW Obelisk solar and 100 MW/200 MWh battery storage project in Egypt. ...

Solar Energy For 25,000 HousholdsAustria's Largest Solar Power Plant Goes Into OperationWorking Together to Protect The ClimateIn autumn 2020, Wien Energie started construction of a photovoltaic plant that will be the biggest in Austria when it goes online. On Schafflerhofstraße in Vienna's 22nd district, on the site of a former municipal gravel depot, the energy provider is building a solar array that is equivalent in size to 15 football pitches. A 6-MW section of the pla...See more on smartcity.wien.gv.atPositionen Wien EnergieOur showcase projects | Wien Energie PositionsWien Energie is using innovative ideas to help shape the energy system of the future.
